

Food Mills

Construction

The Mirro Foley Stainless Steel Food Mill is quite essential and handy in the kitchen. It's great for preparing purees, sauces, and soups, without losing those important nutrients. The stainless steel construction is perfect for hot foods, preparation of natural and healthy foods, and it prevents future staining.

The Foley Mirro food mill is multipurpose and can be used as a masher, ricer and even strainer! The stainless steel construction is more durable than plastic material and also can be used for a long time without rusting and it's smooth surface makes it super easy to clean.

Use & Care Tips

Wash your Food Mill by Hand

Step 1: Remove thumb screw, lift out crank assembly. Place under running water and dry

Step 2: Hand wash with warm soapy water. Before storing, dry completely.

Additional Tips:

- Do not leave the item with food or water
- Use for all types of fruits and vegetables
